

This coverage begins where your underlying coverage ends. If you maintain the required underlying coverages and have a loss covered by this policy, for which no underlying coverages are available, you pay only the first \$250.

All coverage is subject to exclusions. Some types of property are not covered, and some types of losses are not covered. The policy purchased and the facts of each situation will control coverage in the event of a loss.

The Personal Umbrella Liability Policy

A \$1,000,000 policy* for your protection against a life-changing lawsuit.

You work hard for financial security. Don't let it be taken away by a personal lawsuit. Let AmShield Insurance® help you protect yourself against financial disaster with a Personal Umbrella Liability Policy.

This policy is designed specifically for individuals who have a need for broader personal liability protection or higher limits of liability than can normally be obtained under Automobile, Homeowners, and other personal liability policies.

Events like these could involve you in a personal lawsuit . . .

- Your daughter and her friends take social media to a new level and your child is accused of slander.
- Your child's baby sitter trips over a toy on the staircase and is seriously injured.

AmShield's Personal Umbrella Liability Policy provides you additional coverage over your basic personal line policies and may provide coverage for losses not covered by your basic insurance.

This additional liability coverage may provide coverage for losses not covered by your basic insurance.

This policy requires you to buy and maintain an AmShield Personal Auto Policy, along with stated minimum limits of coverage for all losses that can be covered in these areas:

- Automobile Liability (including Motorcycles)
- Personal Liability (Homeowners, Comprehensive Personal)
- Watercraft Liability

*Higher limits are available. Ask your Agent for more details.
